

SKOROVAS GRUBEFJELL

SCALE 1:2000

0 100 200 Meters

SYMBOLS

TROND - Trondhøite
ST - Silphomane
Ep - Epidote knots
J - Jaspilite, magn. rich cherts
R - Rusty, sulphide impregnation
M - Massive volcanics
MF - Massive volc., flow structures
PBX - Flow breccia, flow top breccia
PBY - Pillow breccia, hyaloclastite
XBX - Explosion breccia
Aggl - Agglomerate
BT - Well banded tuffs
T - Tuffs

Large blocky fragments
Breccia, angular fragments
Close-packed pillow lavas
Amygdules
Porphyritic texture
Lapilli tuffs
"Gtz. eye" tuff, glassy quartz fragments
Net-veining structures
Diamond drill hole
Ventilation shaft
Sample location for whole rock analysis
Bag, myr?
Water pipe line

Tectonic Symbols

Primary banding, bedding
Penetrative schistosity
Phase II deformation linear trend
Phase II deform. fold axis trend
Phase III deform. fold axis trend
Major fractures and faults
Minor shear zones

SIMPLIFIED STRATIGRAPHIC COLUMN THROUGH THE SKOROVAS MINE AREA
